

**Starting From Kansas—Row at Holton, Calhoun County—Three Men shot and Forced to Retreat.**

On the 21st inst., a row occurred at a country convention in Holton, the county seat of Calhoun county, K. T., between the Republicans on one side and Free State men and Democrats on the other. A pro-slavery man named Cole was first attacked, when a regular mêlée ensued, in which pistols, knives, and clubs were used. Mr. Cole was forced to retreat to a house near by, which is said to have contained about sixty Sharp's rifles, and commenced firing on their opponents, who were forced to beat a retreat.

Three of the wounded, Messrs. Chisham, Willock, and B. Hall, arrived in Western, Platte county, where they found shelter on May 1st last, having been driven from their homes in Kansas, leaving their families behind them.

Chisham was shot, ball lodging in the right side of his head, near the temple.

Hall was shot in the right arm, breaking the bone, and so completely shattering the arm that it had to be amputated. He was left at Holton and now expected to live.

Willock was shot in the face, ball taking effect left side of the nose and lodged in his right cheek—face very much swollen; ball not extracted.

B. Hall and others were beaten across the head with clubs and gun barrels—breaking Mr. Hall's nose.

**The Fox, W. D. Griswold**—The Evansville Journal says: We learn that W. D. Griswold, Esq., of Terre Haute, who has been long connected with the Evansville and Crawfordsville Railroad in various important relations, has tendered his resignation as a Director in that Company, and is about to accept the position of General Financial Agent of the Ohio and Mississippi Railroad. This is a most important and honorable station, with a salary commensurate with the responsibilities of the office.

Mr. Griswold contributed more by his means, energy and devotion to the work, than any other person, to the completion of the S. & C. R. R., and in parting with him, the road parts with one of its fastest friends—most efficient supporters and wisest counsellors—His duties, we learn, will not require him to remove his residence from Terre Haute, the citizens of which place we see propose to make him their Mayor.

WASHINGON, March 25.

Gen. Herron is still here awaiting the action of our Government on certain sections of the treaty with New Grenada, negotiated in 1848, relative to the imposition of tonnage and other taxes, and by which American citizens are placed on an equality with those of that republic.

The amendment to the Cass-Herron treaty, which went out by the last steamer, is expected to reach Bogota before the adjournment of the new Colombian Congress.

Mr. Sirkles denies the report that he has employed an experienced corps of stenographers to report the approaching trial for publication.

A private letter from a distinguished source at Paris states that M. Léveillé, French minister to Mexico, will go to Nicaragua nominally in the interest of the Bélgas, but really for securing to French citizens the right to employ Asiatics as African apprentices in mining and agricultural enterprises.

**Singular Effect.**

A beer loving Teuton of this city, some days since was told by his fair Karina, to whom he was betrothed, that she had a secret.

He replied by hark!—his heart, his basket, said "got for tare," and at a drug store purchased five grains of arsenic, and committed suicide, first writing a note in German to his father, but not frail fair one. But the arsenic didn't work, and the next day he took ten grains and was moderately well.

The apparatus of experimental illustration includes a good *Terraeus*, *Moresco*, and every requisite to make fully all the principles of the sciences apparent.

Twenty Lectures are delivered before the School, and the course of study is as follows:—

The course of studies is extensive and thorough, constituting a prominent feature. All the subjects in the College course are susceptible for examination, and the Senior Class numbers 100.

The expense per annum, including rooms furnished, food, lights and washing \$25.

For further information respecting the School, apply to the Rev. John Covert, or Rev. Dr. Powers, West Terre Haute, Ind.

JOHN COVERT.

### Ayer's Cathartic Pills,

For the Purposes of a Family Physician.  
A medicine composed of various substances, particularly aromatic roots, bark, and leaves, and containing a large quantity of Tartaric Acid, and other ingredients, and reducing its heat, and restoring its health.

As a consequence of these properties, it is particularly useful in cases of disease, such as Consumption, Rheumatism, Neuralgia, and other nervous disorders.

The spot below named is pleased to furnish the following complaint:
